

Teeth Whitening Refill

Art no: 1201xx

Beconfident - Whiter teeth in 30 minutes

The Refill contains the following items:

- A 10 ml tube with our Beconfident 32% Sodium Bicarbonate gel
- Instruction sheet
- Shade guide.
- Free App Download

How it works

There are several active ingredients that all work together. One of them is Sodium Bicarbonate. For the gel to work effectively it must mix with the saliva. This is crucial for a good result and Beconfident's unique gel is also lifting off stains from the enamel and quickly whitens the teeth. After 2 treatments times 15 minutes you will already have whiter teeth.

The process starts when the bleaching gel mixes with the body warm saliva. The enzyme found naturally in the saliva and gel releases oxygen, which bleaches both enamel and dentin. Normal Whitening time is between 15 minutes. The refill gel can be used to repeat procedure when necessary. Works well Beconfident mouth guard or with custom-made mouth guards developed by dentists.

We recommend anyone to complete the entire whitening process until there is no gel left. Best is to do the cure 15 minutes for 10 or so consecutive days.

3 Unique Competitive Advantages

- Good Gel formulation with proven clinical results, supported by Beconfident intelligent App for best instructions.
- Works with all mouth trays to whiten the teeth.
- It is fast, safe and gentle.

Glycerin, Sodium Bicarbonate, Aroma, Xylitol, Chondrus Crispus Powder, Polysorbate 20, Sorbitol, Aloe Barbadosensis Leaf Juice, Punica Granatum Extract, Chamomilla Recutita Extract, Sodium Fluoride, Linalool, Limonene.

Frequent Asked Questions and answers

Is teeth whitening safe?

Yes, as long as it doesn't contain any peroxides or abrasives. Beconfident teeth whitening products are 100% peroxide free and instead uses a 32% Sodium Bicarbonate gel which does not have any side effects what so ever and is safe to use over and over again.
